Terms and conditions

The repair system works on the principle of »first come, first served«. The unit will be added to an internal repair system and inspected. After inspection the customer will receive the informational email with an inspection report and estimated costs of repair.

Please note that for older units there may be no more spare parts available.

The date of finished repair is uncertain, but usually it takes between 2-4 weeks, depending on workload. Some repairs may take longer, due to finding the problem and solution to it.

LX navigation reserves the right to »initial repair fee«, which covers the cost of entry inspection, handling, final control, updating, reporting and others.

LX navigation will not proceed with repair unless we get a straight response to informational email sent after the inspection the of device.

LX navigation is not obligated to keep the device; if the owner does not answer the information email within a 30-day period. If the customer responds after the given period, some additional charges may appear.

I have read the terms and conditions*:

Fields marked with * are mandatory.
